I'm driftin' and driftin', like a ship out on the sea  
I'm driftin' and driftin', like a ship out on the sea  
Nobody seems to want me  
Except the wide and open sea

My ship ain't got no captain, my ship ain't got no crew  
My ship ain't got no captain, my ship ain't got no crew  
Doin' that tide dare blow me and my past and future  
too

I look around for a savior to search me from the hungry  
sea  
I look around for a savior to search me from the hungry  
sea  
Maybe he's down at the bottom, waiting patiently for  
me
