I was listen to a guitar, bass drum thing
Started hearing chest screech, thought I had a gut
strength
Then I saw a big band, right on the pavement
Violins and heavy boots, wondering where the wave
went

You!
What?
I'm talking to you, Your wearing the wrong colored
scarf
So what?
Well your playing your tune, to the Tarrence enemy
Hauf
Hey you!
What?
I'm talking to you, Concentrate on the game
What for?
Well the whistle just blew, the conductors going to
complain
Play the song, on the wall, come on pass me the ball

Don't let the violinist, trouble your playing
Fierce looking people ,but their managers gay
Syncopation to the sound of the ball
Trouble with the ref, on in the concert hall
Hey you!
What?
That cellist was found, that conductor must be blind
It's a girl!
Whew
Oh look at the crowd
This session has run into extra time
Sit back, face off the senior, doesn't walk alone

Music has arrived at the football stadium
A logical step would be spears at the Palladium
Fifty thousand watts screaming out for a goal
Why don't they blow a whistle in rock and roll
Hey you!
What?
Get back in your seat The song has just begun

So what?
We need two encores to beat, and the band is faced to
run
Hey you!
What?
Get down off of the wire, the game is still strong
Say's who?
Well I'll never talk, Kicking my piano around
All you fans of the score, if you give a show of support
Will?
Win.
