(Can you really dance)
Can you really dance
Really take a chance
Can you really dance
Stand into the real world

Walk into the real world
Step into the steal world
Can you really dance
Really take a chance
Can you really dance
Stand into the real world

Walk into the real world
Step into the steal world
Can you really dance
Really take a chance
Can you really dance

Can you really dance
Will you take a chance
Can you really, Can you really, Can you really dance
Can you really, Can you really dance

Real world
Step into the real world

Can you really dance
Really take a chance
Can you really dance

Walk into the real world
Step into the steal world
