Man in uniform told me he wants to get out  
Didn't see it coming head in from the west  
And it's he who choose  
To reach another level  
I never even saw it  
before today  
sew his uniform  
paint a different circle  
can i wonder how  
you never let me down?  
If it's we who choose  
I'll reach another level  
To be that one who never lost a day  
But it's he who choose

I'll reach out for the takers  
I never saw them make it in a scene  
Man in uniform  
Wants to get out  
He didn't see it coming  
Blaze in from the north  
So it's they who choose  
I'll reach out for beginners  
I know you could not miss it,  
It's a date!  
A little while :  
Just for a little while  
I know you never wanted it this way  
I can see, I can see.
