If you feel in your soul  
Let the music take control ..... all night all right  
Time to get your party on  
Do it till the break of dawn .... all night all right

Everybody knows about the place to be  
Especially on a night like tonight  
And baby I can't help but thinkin' you should be with me  
At ten to two a two's a ten  
I'm about to lose control

If you feel in your soul  
Let the music take control ..... all night all right  
Time to get your party on  
Do it till the break of dawn .... all night all right

Like to see movin' to your favourite tune  
The way you work that body get's me in the mood  
I can't help but wonderin' if you'll stay with me  
It's ten to nine you're lookin' fine  
I can't help but vibe, vibe

Cos' honey you are on my mind so fine  
Wanna see you groove all night all night all night long  
Can you help me  
I'm about to lose control

Yep buddy.... yes yes ya'll, get up of the wall  
You can get down of you can get clowned

One for the treble and two for the bass  
Three to get steady is everybody ready  
If it's all right then it's alright no  
Pass me the mic and watch the party smoke  
Heat it up and you can speed it up  
Gonna scratch a little bit, but don't beat it up  
While your posted in position by the speaker  
Yu could be out on the floor with tamika tryin' to freak  
her  
Peter better go grap janet  
And don't let her go God damn it  
When he asks you to dance you better not say no

What the hell you come in here for  
Are you lookin' for some action or satisfaction or  
physical attraction

If you feel in your soul  
Let the music take control ..... all night all right  
Time to get your party on  
Do it till the break of dawn .... all night all right (x2)

It's in your soul just take control .... all right

If you feel in your soul  
Let the music take control ..... all night all right  
Time to get your party on  
Do it till the break of dawn .... all night all right (rpt to  
fade)  
It's goin' on till break of dawn .... all right
