Everything about you is so right,
Baby you know that i'm so proud,
To say your mine, all mine,
Why you leave me standing like a fool?
Is there something that ive said or done to you?

You know i wonder, oh i wonder,
If your coming home tonight,
I'm thinking what it could have been baby,
Cant get you off my mind,
I've opened up the door,
But in my heart i.....

Feel you running away from my love,
Why you running away from my love?
Its cold when where apart and it's playing in my heart,
The moments that we shard will stay,ooooohha
In my heart i.... feel you (well, well, well)

Thinkin of the lovin that we make
Baby i love they way you touch me in your special way
So why do i just feel like a man that's just being played.
Tell me it isn't true (spoken)
Im begging baby stay

You got me going crazy (you got me going crazy)
Ive been waiting by the phone
Think about the things i wanna do to you
Soon as you get home
I give you everything
But in my heart i.....

Feel you running away from my love (I feel you, yes i
do)
Why you running away from my love
You know it's cold when where apart
And it's playing on my heart
The moments that we shared will stay (ooooohha)
In my heart i.....feel you (well, well, well. well, well, well)

You know i wonder, oh i wonder
If your coming home tonight

Im thinking of the bedroom baby
Wed be making love, making love
Ooh if only you'd come through the door
I know you can't ignore
All of the love you ever need
I want to give you more
I feel you running away from my love(every little bit of
my heart)=mm
Why you running away from my love?
Because it's cold when where apart
And it's playing on my heart
All the moments that we shared in my heart.my heart
(oooohha)

I feel you running away from my love (yeah, baby)(feel
you running away)
Why you're running away from my love (feel you
running away)
Because it's cold, so cold
And it's playing on, playing on my heart
Ooooohha
I feel you running away from my love(i really do feel it
can you feel it?)
Why you're running away from my love (i really do feel
it, can you feel it?)
And it's playing on my heart (yeah)
Ooooohha
