yeh what can i say?  
My heart needs you,  
My body needs you,  
I need you

I see you dancing there, should i approach?  
You seem to be sending out signals double time!  
Maybe i will dance your way, but most likely i won't!

My heart needs you,  
My body needs you,  
I need you

I finally suppress the butterflies!  
i do what know other does,  
i walk over casually  
and you seem to walk further away!

My heart needs you,  
My body needs you,  
I still need you!
