Say it girl, what's on your mind
Are we really for each other?
Trust in me and what I have to do
Let me touch like no other

Lady take it slow
So we can let our feelings grow
Give me your lovin' baby
I'll be your lover darling

I sad, take it nice and slow
So we can last forever more
Give me your lovin'
I'll be your lover tonight

I wanna take it nice 'n' slow
Baby there's so much I wanna show
I wanna take it nice 'n' slow, yeah
We should take it nice 'n' slow
Baby make it all night long

We should take it nice 'n' slow baby

All I know is how I'm feeling now
Can I be with you my lady?
All I want is just to make it last
Without your love i;m going crazy

Lady take it slow
So we can let our feelings grow
Give me your love
I'll be your lover, tonight

Ya know baby, I need your love
Give me your love
Give me your lovin' baby
I wanna know, I wanna know
Give me your love, give me your love, tonight
