She said it's good to see you
it's good to see you too
it's been about two years now
amonth, a week and severals days
she laugh and say i'm crazy (said I am)
still crazy over you
she said I'm sorry
and then she asked me if it hurts
(and I said)

Only when I breathe, only when i speak
Only when I wake up in the morning
Only when I lay down to sleep
Only when I breathe, can't shake your memory,
And i don't know what's worse
So when you ask me if if it hurts
Only when I breathe

I tried to blame the weather, I tried to blame myself
I tried to blame the night, the moon, the stars
And everything else
I wish i didn't love you
It feels more like a curse
It feels like I'm going crazy
So if you wonder if it hurts

Only when I breathe, only when i speak
Only when I wake up in the morning
Only when I lay down to sleep
Only when I breathe, can't shake your memory,
And i don't know what's worse
So when you ask me if if it hurts
Only when I breathe...
