"Blame"

Visit "[Blame](#)" on MotoLyrics.com

When you're up or when you're down
Might as well get out of town
'Cause they're gonna put the blame on you
If you work you'll be set free
Maybe win the lottery
Or else they'll put the blame on you

You can try
You can fly
Don't worry 'cause they're gonna put the blame on you

Just a child or hardly old
Always done what you were told
And still they put the blame on you
Have faith in society
Never seen it work have we
And they're gonna put the blame on you

You can give to a charity
Hope it reaches those in need
Not to put the blame on you
Eat too much and wreck your health
It's a habit you tell yourself
You'll have to put the blame on you
Sex seems right if it feels good
But if it ends in motherhood
You guessed, they'll have to put the blame on you
