Your voice grew softer than sighing  
And laughter was dying in everything you did

We're together with this lot  
We'll reach further than we got  
Victory is on our smile

Liberation Dance, here's another chance  
Scent in the air of history goin' down  
Sense the heartbeat without any sound

Your voice grows stronger than armor  
And washes in colour like you knew it could

Your love grows stronger than armor  
And washes in colour like you knew it could

Liberation Dance, here's another chance
