You make me laugh you make me sing
You light the room with what you bring
Raise the glass let's take a drink
Feel the joy before we sink!

You make a joke, you start a script
Create a mood until we're tripped
Raise the glass let's take a drink
We can agree without the ink

Some might say "not the way, at least not every day"
Know yourself my friend
Have the same my friend?

Let the fun begin to flow
Let's have one before the show
Raise the glass, let's take a drink!
Make mine double Mister Pink

Some might say "not the way, at least not every day"
Or else we'll have to count the cost
In the end my friend
Have the same my friend?

Raise the flask, take the slug!
I might need another drug

Some might say "not the way, at least not every day"
Know yourself my friend
And have the same my friend
Raise the spirit, start to heal
Hard to know just what you feel
