I know I made you angry  
So many times before  
But when I feel you near me  
Nothing makes me feel more

I've loved you for all these years  
Don't want you to go  
You don't know what love is  
If you don't know what to do now

Sometimes love is like the tide  
If we only wait this problem will subside  
I know if we live through this  
There's a lot of trouble we'll pass into bliss

There isn't often times I pray  
Like when I get ???  
Yet I'd rather not betray  
The fight of the party's end

I know there's been so many  
Promises and histories  
Meant to break your ???  
I'm free to know what love is
