My dancing heart you pull the strings  
With every breath my heartache rings  
Some force brings me here to today  
Some force brings me here to say

I can't live without the loving look in your eyes  
I can't live

Like a storm you break into my life  
I blink my eyes and you're my wife  
You came as quickly as you go  
A storm cloud heaving one last blow

I don't know  
Is it me you're looking for  
I don't know

Stay here  
Stay here tonight  
Stay here  
Just stay here tonight

I want to be home for you
