Mind your days

I'm just letting you know you're wasting your time

On some pointless, daily grind

The boss is home

He's with his kids, what a guy

Well he's living while we die

He cut my pay

Well, what can I say, he's got his degree

Well look at me

What you need is a day for yourself and that's what you
need

Take the day off watch TV

All you need is some sanctuary where you can rest

Remove your mind and pass the day
