"Wind On The Water"

Visit "[Wind On The Water](#)" on MotoLyrics.com

The stillness in the air is nothing like your green eyes
You would never care, you set your horses free and
wild

Its gonna find you where ever you are
Nothing you can do about the moonlight

(Chorus)

When theres a wind on the water
Stormin' in my soul
Touched by heavens daughter
Makes me overflow

An unexpected smile theres a secret that you're
keeping

Tricks me like the tide over castles creeping
Nothing you can do about the weather
It's gonna find you where ever you are
Nothing you can do about the moon light

(Chorus)

And im seeing the stars tonight
Like its the very first time in my life
Take a boat out on the waves there's no need to be
afraid

First I hear the wind blow whispering my name
Then I see your shadow no need to be ashamed, dont
be ashamed

Nothing you cant do about the weather
Its gonna find you where ever you are
Nothing you can do about the moon light

(Chorus)
