"Yes I Will"

I will love you forever, yes I will
Follow you like a river, yes I will
Swing low and swing high, the years may come and
pass you by
But all my life I'll love you still, yes I will

On the rock of faith we stand, yes we can
But a long hard road may stomole you mm mm
For every woman, every man, so much of love we don't
understand
But when is comes to take your hand, say, "yes, I will."

For today
Come what may
In this house of love we'll build say
Yes I will
Yes I will
