"The Sound Of You And Me"

Visit "[The Sound Of You And Me](#)" on MotoLyrics.com

Every street I walk points to your town
Every single thought hunting you down
Every song I know playing your sound
Every single tune brings you around

This is the sound of you and me
Don't you know this sound?
It's you and me
You and me

Don't you know this song, I'm sure you do
I point it to your ears to get in touch with you
Every song I know
Everywhere I go
Every single tune...

This is the sound of you and me
Don't you know this sound?
It's you and me
You and me

I don't mind if this never ends
I'll try to find another way

This is the sound of you and me
Don't you know this sound?
It's you and me
You and me
