Nothing i can say  
Will matter anyway  
Just a vain display  
With me in the middle

No more empty words  
Will anymore be heard  
All my rhymes and verbs  
Mean very little

It doesn't mean anything without You  
Just a nice melody without You  
Without Your Spirit to sing  
Of the hope and the joy that You bring  
Without You it doesn't mean anything

Nothing i'll ever do  
Could hold a candle to  
The love displayed when You  
Said You forgave me

And what i know of love  
Is that i'm not deserving of  
One You called Your Son  
One sent to save me  
Like love holding the hand of hate  
You choose to love me anyway

It doesn't mean anything without You  
Just words that i say without You  
Without Your Spirit to sing  
Of this change of the heart that You bring  
Without You it doesn't mean anything
