

## **Pfr ( Pray For Rain ) "Missing Love"**

Visit "[Missing Love](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I spent my life  
Learning to survive  
Walked down these roads  
Hoping each one might lead me home

I learned early on  
That trust can come undone  
And leave your heart  
Guarding it's deepest part

But you got in through the marrow and bone  
Shed some light where none had shone

I lost i found  
I was missing love missing love  
I fought to stand my ground  
I was missing love oh missing love

Can you teach me  
To live as one who's free  
From fear and from shame  
And the lie that i'll never change

Help me to see myself through a lovers eyes  
No more mask no disguise

I lost i found  
I was missing love missing love  
I fought to stand my ground  
I was missing love oh missing love

You found me and made me whole again  
My Savior my Friend

I lost i found  
I was missing love missing love  
I fought to stand my ground  
I was missing love oh missing love
