Father above  
Look upon me now  
How i've come this far  
Only You know how  
You've changed my life  
Made me whole  
All i am now  
To You i owe it all

You are reality  
You alone are life  
You take a heart so dull  
And make it shine so bright  
To burn for You  
And all You are  
A Light in the night  
A Guiding star  
You are

Here are all my burdens  
I lift them up to You  
Your words they ease my mind  
Your gentleness shines through  
Giving us hope  
When hope is all gone  
Never retreating  
Sending us on and on
