I know you  
I know you doubt what i am saying  
You think that i've been deceived  
To follow after what some call a weak man's haven  
It seems so simple that it's hard to believe

Chorus

I can't understand why you would walk away from love  
No i don't understand why you would walk away from  
love  
Just can't understand why you would walk away from  
love  
I'll never understand why you would walk away from  
love

Maybe i'm right and He's waiting at the table  
Maybe it happened when i saw it was my sin  
Maybe He's waiting for a chance to show you true love  
Maybe you'll never get this chance again

Chorus

I'm a fool, so are you  
I'm a fool, so are you  
Maybe you think i'm a fool for what i'm saying  
Maybe that's what i'd like to be  
Or maybe you're a fool to say you're a wise man  
Either way you lose unless you meet with my King

Chorus 2x
