Sometimes I lay awake at night
So caught up in the same routine
I think about these average days
That I'm working away
Is this what happens in between?

Sometimes you need to make a change
Cause you get so caught up and
You feel your life is wasting away.

(Life)
Is only what you make it each day
(Aren't)
You meant for more than this?

I never knew what I was for
Only knew that I wanted more
Now I know that I am
Only what I let myself be
I never knew what I was for
Only knew that I wanted more
Limitations lie within yourself

I never want to wonder why
If I had never tried to see
I think about these average days
That I'm working away
Is this what's happening to me?

(Life)
Is only what you make it each day
(Aren't)
You meant for more than this?

I never knew what I was for
Only knew that I wanted more
Now I know that I am
Only what I let myself be
I never knew what I was for
It lies within myself
I know this

Free the force that makes you want to change
Don't you ever want to break away

Free the force that makes you want to change
Don't you ever want to break away

Free the force that makes you want to change
Don't you ever want to break away

Free the force that makes you want to change
Don't you ever want to break AWAY

I never knew what I was for
It lies within myself
I know this
I never knew what I was for
Only knew that I wanted more
It lies within myself
I know this
It's within myself
I know this

Cause that's who I am
