You walked on the scene of a street in a dream  
You took my hand  
Led me to the far away place  
And left me a dead man

Now I see your face every time I scream  
Picture fades I don't have to seem  
So blind that I would take you on  
It's all right just one night  
You'll soon belong to me, no

[Chorus]

Bad dreams aren't forever  
Can't hold on to them  
Bad dreams aren't forever no  
One in a million fall down from the sky  
Bad dreams aren't forever

You told me a long time ago, you said  
Don't look in my eyes with your anger  
Just turn your back and walk away  
From the man who swears he's your best friend  
Next thing you know he's under your bed

[Chorus]

They just die  
Bad dreams, bad dreams, bad dreams
