

Pharcyde "Hey You"

Visit "[Hey You](#)" on MotoLyrics.com

Beam me, beam me, beam me, beam me up Scottie
Not as to where I have no control of my body
Tweaking diodes I walk the roads like karate masters
Most the time my mind be ghost like Casper, sinkin'
faster

But coming up in this shit, sometimes I'm alienated
under rated
Suckas hate it that I made it as a misfit
But you know if the shoe fit's I'ma wear it like a glass
slipper
Hike to the big dipper, dip like a skipper not top could
be tipper

Say what? But fools be tryin' to rape friends to make
friends
And that's one big twisted ass picture like Jack the
Ripper
Caught up in the net like Flipper on a Tuna protest
Yeah, where's the focus

Got me fuckin' with these friends
And they're crackin' my lens
And now shit be'z foul as a mutha
Word to my sistas and my brothas and my color

Hey you, can I take up a moment of your precious time
To realize and define the whole truth
Hey you, yeah take up a moment and clarify this for
you

Hey you, can I take up a moment of your precious time
To realize and define the whole truth
Hey you, yeah take up a moment and clarify this for
you

Because of my high altitude
The attitude of this one dude was just so lewd
That he was viewed as rude and pursued by the side
He was booed and chewed like food in the feud

Ending a career way shorter than an interlude and

dude

The word I heard is that your vision is blurred
That's why you be speakin' the word so absurd
But you get exactly what you deserve

As I hit and you swerve to hit the curb
'Cause you be totally guilty of the filthy type phrasing
Faltering for sure under pressure
Over hype and un-amazing

Hey you can I take up a moment of your precious time
To realize and define the whole truth
Hey you yeah take up a moment and clarify this for you

Hey you can I take up a moment of your precious time
To realize and define the whole truth
Hey you yeah take up a moment and clarify this for you

Hey you can I take up a moment of your precious time
To realize and define the whole truth
Yeah take up a moment and clarify this for you

Hey you can I take up a moment of your precious time
To realize and define the whole truth
Hey you yeah take up a moment and clarify this for you

Hey you
Hey you
Hey you
