Rush, rush, rush, rush

[Bootie Brown/Frank Fiction]

What gets your adrenaline pumping? Overtaking  
Mental thought process move quickly to attain  
And acquire that state of being all desires seen  
Some get theirs nostril schemes  
Old men chasing nothing over nineteen  
The rush is good but not the right thing  
Too long or too fast, gotta spend lots of cash  
Break fast, brakes then mash, gotta make it on time

[Imani/Citizen Strange]

Rush, through my veins I can feel the blood gush  
Gushing, adrenaline rushing, increased heart beating  
Pulsating, no time for debating, no waiting, rush  
Like getting busted, butt-naked fucking  
Rushing to have sex, rushing death, that's suicide  
Pharcyde give you a rush like holding a gun on nitrous  
oxide  
Or like rolling up on me, man, looking right in my eyes  
How women feel when the tongue slides up and down  
her thigh  
Ever tried bungee jumping? I had a real surprise  
Try flying high in the skies then jumping out and  
parachuting  
The way a man feels prior to an execution, rush  
Eyes bulge, face flushed, scared of heights?  
Try being stuck in an elevator falling a thousand flights

Look out for the, rush  
Everybody's in a, rush

[Imani/Citizen Strange]

Under pressure we hold it steady  
Nothing will be delivered before it's ready  
(Rush) If so? It's okay, later they'll pay  
Rushing to do nothing, rushing trapped in traffic  
Gridlocked, speeding up corners  
Stay stressed but they cannot rush  
Rushing to flush the rest of the evidence  
A pure rush like turbulence

They wanna hurry me, they try to worry me  
But they can't hurry me unless it's an emergency  
And if it ain't, huh, then please stand by  
Imani needs to take time to plan mine  
But if I gotta do it on the fly I'll do it on the fly  
But why, why? Rush, rush, rush, rush..

[Bootie Brown/Frank Fiction]

Smoking blunts, driving ninety racing on the Pasadena  
110

First drop on the colossus, it settles in over shadows  
Engraved in the eyes when a real emcee battles  
With his opponent, I use it as one component  
Linked to the drive when the beat is dropped  
I wanted the force to move but rush turns your brain to  
mush  
Stimulation lush, with danger we brush  
Sometimes it's the only thing sustaining us

It's the, rush  
Look out for the, rush  
Everybody's in a, rush  
Beware of the, rush
