[Pharoahe]

Fuck it I shagged her, without the use of dissolve
Viagra
Had her comin like Niagara Falls when I bagged her
On the cellular my genitalia pitched the pelvis
Uh-huh, when her hips gyrate like Elvis
She tried to scurry hurry to finish very alone
Tell my doggs what's necessary bout how I bury the
bone
She said (When you ready to blast, don't ask, say
when)
Had her screamin like lightin a nuke when I was
halfway in
In the past I used to send em back, give em the
minimum
Now I leave em with venom on they chin when I'm
bendin em
Y'all know the name - get it engraved, sex slave
Stadium style, from the back, ass doin the wave (HEY!)
Yellin to me is a felony
Hell'll be froze over when I celebrate celibacy, case
closed
My Dick Rules Everything Around Me, D.R.E.A.M., get the
ass
Without spendin the cash now, look at em
Standin tall with the veins all in it
Nuts ripped up with the brain all in it
My man Mike to see more Dick than Dastardly and Van
Dyke
Together help me make it through the pain struggle
and the bad weather
Yo, be on your way on your lesbian quest
I'm chillin at the rest with Five Fingers of Death (uh-huh)
And a whole lot of cash
'Specially if y'all sisters ain't up in the..

The ass! (4X)

Ladies..

The dick! (4X)

Uhh, what
Vaginas diamond studded, you know you love it
Rub dick the right way, don't be cummin quick like
express trains
Make your Jones crazy
Swallow bones but no babies, to stick this gotta lick this
Tonight's entre is cherries bombay
And thai-thai's flavored cafe latte
Broke-ass bumba claat let's rock can't play with mines
Need not ? danglin, pinchin my spine (ow)
Hangin ten with the best of wenches, that never
flinches
Bench your game, part four won't score
Gotta hit the backboard, like it raw backdoor
Wanta pause hardcore porn style, ba-bay
Who do it better? Say my name backwards and spell
each letter
Be havin grams of spasm, leavin on a stretcher
And ? wet and incredible, suction
Punk-ass you're wack pumpin, ready to rupture
Bustin wildly like N.Y.P.D.
So typically we, wasn't ready for the fantasy freak
Don't sleep, privately I peep with devices
Energizers keep me vibratin in a crisis
Representin my bitches, throwin clitorises
Like ventriloquistes limp, penises don't kiss these
pussy lipses
Please you play, clay with top grade shit
I seen bigger dicks in pre-K

Nahhhhhh!

The dick! (4X)

Niggaz

The ass! (4X)
