Yes, yes, yes, yes, yes, yes  
I'd like to welcome all of you  
Into the secret sessions of the sacred talisman  
You are here with the three conductors of rhythm  
Yes, constructors of reality through musical  
composition  
Yes, relax and interface as we take you into the next  
phase

Where ya at, where ya at? They keep asking where ya  
been  
We been preparing for two thousand and beyond,  
Pharcyde  
What's the gripe, clown, turn that hype down  
You had your chance but wasn't able to advance  
Now you're stuck in a trance, all caught up in our  
rhythmic avalanches  
Biting our sound like sandwiches, you fucked up your  
chances  
Due to certain circumstances that you could've  
controlled  
But had no real substance so under pressure you fold

Freak the peak of this lick, ghetto chic over fresh beats  
Overexposed and cheats with verbal traction like cleats  
Trying to get skeets, huh  
Yup, they trying to get mine but I walk that fine line  
'Cuz fools carry heat like sunshine  
Damn, Pharcyde's popping, they hippping and they  
hopping  
And it ain't no stopping, repeated shots to they noggin'  
Banging until they jaws is dropping, again

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush

Waiting around, it's like a hot day to burn it up  
With another hot plate, got your neighbors irate  
Volume way past 8, keep me booming in your system  
From your residence to your auto, niggas envious  
Green like an avocado, no beef, only equals cattle  
Por favor, give you what you want and more  
At the record store, first letters ?PH' as in phosphorous

Learn to enrich my mind, working on being prosperous  
A fool with money is quick to part  
Some things start off sweet and end up tart  
I speak in the front like a [unverified]  
When you was expectant it the crew and I connected  
Keep it collective from first to last  
Is it banging, is the question that they ask

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush

Impressed with the wrong impression  
About this rap shit, it's more than my profession  
It's heartfelt, this life dealt a deadly hand  
Life's lessons, hard times made a deadly man  
Out of the soft, stressing, I fall down to my knees  
For my blessings, push my wants aside for a minute  
'Cuz greed had me testing my own fate

My own self-worth and how it goes to waste  
All these things that I'm supposed to face  
It gets scary on my planet sometimes  
My intuition in the back of my mind tells me right from  
wrong  
Giving me strength to write this song, I might not be  
here long  
So I take it serious and stop chasing a dream  
'Cuz it made me delirious, all cats are curious entering  
wrong

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush

When it seems there's no one to trust  
You can always count on Pharcyde to bust  
We readjust, combust from dawn to dusk  
Leave fly girlies with a crush, wack rappers on hush
