This is what my God is like
He's brighter than the brightest sun
Fiercer than a raging sea
Stronger than a mighty army.
This is what my God is like
Gentler than a Mothers kiss
Kinder than a doubting Dad
Wiser than the wisest Saint.
Yeah
This is what my God is like
He's radiant with majesty
Slow to anger full of grace
Father of a family.
This is what my God is like
Pure and holy, hating sin
Jealous for His children's love
Patient with the prodigal.
I love Him, He loves me
I love Him, He loves me
This is what my God is like
He speaks and stars are born in space
Worlds and galaxies burst forth
By the power of His Word.
This is what my God is like
He sent His one and only son
And let Him die in place of us
Saving millions for all time
I love Him and He loves me
I love Him and He loves me
This is what my God is like
He's brighter than the brightest sun
Fiercer than a raging sea
Stronger than a mighty army.
This is what my God is like
Gentler than a Mothers kiss
Kinder than a doubting Dad
Wiser than the wisest Saint.
I love Him, He loves me
I love Him, He loves me
