

Phidge "Next June"

Visit "[Next June](#)" on MotoLyrics.com

Hold on for a second don't let this go
Silence are the words that you just don't know while
you...

Images and sounds might keep you warm but
Maybe you'd look good if you did not know
How to drive around

Maybe it all will fall down with this tune
Real fires they burn too soon
Try and persuade me 'til next june
Real fires they burn too soon

Keep your eyes both open wide as you start on
Everything is lighting up and still you yawn
While you drive around

Maybe it all will fall down...
