A constant fighting made me anxious  
I never thought Iâ'd look like  
I have to find my eyes to see if  
I still care of this  
But I gotta keep like it was  
Just like you wouldn't care for it  
Just like it was, like no one would leave it  
Just like it was, like you never thought you ever had it  
A constant fighting made me anxious  
On everything surrounding me  
But try and think of what it's like  
To have it 'round every minute of the day  
Every minute of the day

And it doesn't go away
