I'll bring you all my love
I'll take you wherever you wanna go
One night is what I want baby
And I'll show you paradise
I'll bring you all my love
I'll take you wherever you wanna go
I'll do whatever it takes to
To show you paradise

I'd love to see
You get closer to me
And never leave
Don't let anyone get between
You set me free (you set me free)
In a way that I can't describe
How will I know
When you don't stand next to me
Oh, let me have you

I'll bring you all my love
I'll take you wherever you wanna go
One night is what I want baby
And I'll show you paradise
I'll bring you all my love
I'll take you wherever you wanna go
I'll do whatever it takes to
To show you paradise

I want to say
Oh, I'd just loved to be with you
All I can pray for
Is a power to keep you here with me
Day after day (day after day)
I wanted to call out your name
And when you called me
You made my dreams come true
Oh, let me have you

I'll bring you all my love
I'll take you wherever you wanna go
One night is what I want baby
And I'll show you paradise

(I'll show you paradise)
I'll bring you all my love
I'll take you wherever you wanna go
I'll do whatever it takes to
To show you paradise

I tried to let go
And walk away
Don't fall in love again
I don't have to prove
Oh, baby I'm a fool
Day after day (day after day)
I wanted to call out your name
How will I know (how will I know)
I just got to show you paradise

I gotta, I gotta show you
I just gotta show you baby

I'll bring you all my love
I'll take you wherever you wanna go
One night is what I want baby
And I'll show you paradise
(I'll show you paradise)
I'll bring you all my love
I'll take you wherever you wanna go
I'll do whatever it takes to
To show you paradise
(To show you paradise)

I'll bring you all my love
I'll take you wherever you wanna go
One night is what I want baby
And I'll show you paradise
(I'll show you paradise)
I'll bring you all my love
And I'll show you paradise
(I'll show you paradise)
I'll bring you all my love
And I'll show you paradise
