Just set your sight high  
Look 'em right in the eye and take it  
And make a big, big, big noise  
Don't ask why  
Just take it wise and making it  
Make that a big, big, big, big noise

You can feel it in the air  
Feel it everywhere  
There's a spirit moving  
At just look, it's all around you

Just take a look around you people, stars [Unverified]  
to lose it  
'Cause if you wanted you gotta go get it  
Just to listen up  
If there's something that you need  
You better believe

Just set your sight high  
Look 'em right in the eye and take it  
And make a big, big, big noise  
Don't ask why  
Just take it wise and making it  
Make that a big, big, big, big noise

Better make your play  
Don't let her think like right or wrong, get it  
'Cause there's nothing to it if you just  
If you reach out and do it, it'll be okay

Just catch yourself a piece of the action  
Just to listen up  
If there's something that you need  
You better believe

Just set your sight high  
Look 'em right in the eye and take it  
And make a big, big, big noise  
Don't ask why  
Just take it wise and making it  
Make that a big, big, big, big noise

'Cause if you wanted you gotta go get it  
Just to listen up  
If there's something that you need  
You better believe

Just set your sight high  
Look 'em right in the eye and take it  
And make a big, big, big noise  
Don't ask why  
Just take it wise and making it  
Make that a big, big, big, big noise
