I wanna testify
Testify my love for you
I'm here to testify
Testify my love for you
I will do all that I can do for you
Together we will be together
Come on testify
Testify your love for me
Testify
Testify your love for me
You can be all the things you want to be
And together we will be together

Every heart that's ever been broken
Knows these things that's not go unbroken
Giving yourself, giving each other
The strength to lead on one another
I'll be there for you
You'll be here for me

That is why I wana testify
Testify my feel for you
Come on and testify
Testify your trust in me
You can be all the things you want to be
And together we will be together

Every heart that's ever been broken
Knows these things that's not go unbroken
Giving yourself, giving each other
The strength to lead on one another
I'll be there for you
I know you'll be here for me

I wanna testify
Testify my love for you
I'm here to testify
Testify my love for you
I will do the best things that I can do for you
To know together we will always be together
Ooh yeah
I wanna testify my love for you

Testify
Oh yes I wanna testify my love for you
Testify
Testify my love for me
I will do all that I can do for you
Together you know we will always be together
I wanna testify
Testify
I wanna testify
I wanna testify
I wanna testify
I wanna testify
Testify
Testify
Together
Together we will be
Together forever
Testify
Testify
Testify
Testify
Testify
