I remember the night you weren't at home
Had to work late is what I heard
That's what you said

I can never forget the way it felt
You needed some time to work it out
That's what you said

And now I feel a fool
'Cause late at night I call your name
I'm wondering what for
'Cause I've seen those other guys
Sniffin' around your door

Whatever happened to the words
Lovers for all eternity?
That's what you said

Well I was your Romeo
You were my Juliet eternally
That's what you said

And now I feel a fool
'Cause late at night I hear your voice
Calling out my name
Oh, I know it's just a dream
But every night's the same

I carried a torch for you
Through the thick and thin
You know it don't seem right
That I won't see you again
No, no

Late at night I call your name
I'm wondering what for
'Cause I keep seeing those other guys
Sniffin' around your door

I carried a torch for you
Through the wind and rain
I'll never forget you

But I won't see you again
No, no

I thought your friends all liked me
I thought I fitted in just right
That's what you said

Soon I'll be gone and you'll be free
You can go find the things that you want
That's what you said

And I won't feel a fool
Late at night I still call your name
I'm wondering what for
'Cause I keep seeing those other guys
Come sniffin' around your door
What for?
