It's never where you think you'll find it  
The thing, you think you're looking for  
It could take you all your lifetime  
And still you'd never quite be sure

You could look everywhere  
Because you know it's there  
Somewhere beneath the sky

Too close and you'll get burned  
There's no lesson learned  
Yet some people pass it by

You'll see things different  
When you look thru my eyes  
Things are different  
If you see what I see

Just look closely  
And you'll see thru my eyes  
It could be different  
You'll see how it could be  
If you can see, me

You may need help  
To find your way home  
Those who brought  
You here have flown

The road you take  
Is full of hope or sadness  
The choice you make  
Will be your own

But you're not alone in there  
Just say hello in there  
'Cause there are many just like you  
Just like you

They'll help you find someday  
To make it all the way  
They'll tell you all you have to do

You'll see things different  
When you look thru my eyes  
Things are different  
If you see what I see

Just look closely  
And you'll see thru my eyes  
It could be different  
You'll see how it could be

If you can see, me

No one warns you  
Of the heartache  
No one can hide  
You from the storm

But from the shadows  
There will come the sunshine  
A place to dry  
And keep you warm

Though no one tells you how  
Your heart's beating faster now  
Getting stronger day by day

Suddenly it's clear  
What you seek is near  
It's what you learn  
Along the way

It's never where  
You think you'll find it  
The thing, you think  
You're looking for

Well, it could take  
You all of your lifetime  
Still you'll never quite be sure

You'll find it  
You'll find it  
Just look closer

You'll find it  
Look closer  
It's there

You'll find it  
You'll find it

You'll find it  
If you look closer

Look closer  
Look closer  
Look closer

You're gonna find it
