"A Good Day"

Somebody mentioned a new start
Keeping me off of the old track
Try and take showers in Prozac
Just to see how fast
I close the door to the past
I used to be looking for a reason
I used to have time to explain
Now I'm going to fast for conditions
Outta my lane - I'm going too fast to change

If it's a good day to give it up
Then I surrender
Call it a day and call the cops
Repeat offender...

Never had trouble with balance
Wasn't a thing I couldn't fit
I used to be up for the challenge
From a hero a monster to a great piece of shit

If it's a good day to give it up
Then I surrender
Call it a day and call the cops
Repeat offender...
If it's a good day to give it up,
If there was someone to make me stop,
If there's a good way to call it off
Then I surrender....

Do you still take part yeah do you still have dreams in
this frozen state
You're robbed of a future that always yeah always
arrives too late...
