Yhea, I've changed but I kept my name  
To retell a joke, it won't be the same  
My eyes burn new black hollow holes  
My fate's revealed my future's told  
Mercurychrome..  
Waitin', when the world's scraped raw  
bones..  
The biggest stitches that you ever wore

Blood in Blood out - Feel your past unwind  
Blood in Blood out - Through' sweat 'n' hair  
Blood in Blood out - My anorexic mind  
Blood in Blood out - Gasping for air

I'm all right, I'm habituated  
So I tip my hand, afraid to play it..  
And then my rib's goes twang  
- and of they fly..  
It wasn't meant for human eyes  
Let it go..  
Yhea, another life, another form  
Slow..  
But, nothing happens when it comes along

Blood in Blood out - Feel your past unwind  
Blood in Blood out - Through' sweat 'n' hair  
Blood in Blood out - My anorexic mind  
Blood in Blood out - Gasping for air

Check my heart 'n' respiration  
I feel I look a little pale  
I just missed another station  
- I'm stepping off the carousel...

Blood in Blood out...
