It's far too big  
For my feet to step by  
The heart of standing is:  
-I cannot fly!  
I'm so involved  
I can't give it up..  
I don't feel like winning,  
Though I'm on top

See where it takes you  
And where it takes me  
Either homefires burning  
Or we both go free..

Bigger than ever  
The sun is a star  
Hold me together  
I'm flying apart, yeah!

You got a way  
To keep me on your side  
You make me so small,  
I stand sideways and hide

See where it takes you...

Bigger than ever ...

See where it takes you  
And where it takes me  
Either homefires burning  
Or we both go free, yeah!

Bigger than ever...
