You know there's something about you
Every man would love to have
No woman has gotten me in
Such a beautiful mess
The color of your hair
Brings the sunshine out
The touch of your skin
Makes me feel like I'm in a cloud
Does anyone know this
Does anyone care
One thing I do know is

Should have been in a love song
You and me on the beach
All alone
Should a been in a love song
First night alone
Lovin' to the break of dawn
Should have been in a love song
Should have been in a love song

We've done some crazy things
Stayed up till the middle of the day
Just you and me
Don't need to be in no parade
Had you in my truck
In the middle of the rain
Looking for a place to get stuck
All I wanna say is

Should have been in a love song
You and me on the beach
All alone
Should a been in a love song
First night alone
Lovin' to the break of dawn
Should have been in a love song
Should have been in a love song
