[From the CD of Private Parts & Pieces]

Dear friend when you are gone
There'll always be this song
To remind you of where you once belonged
Before you fly away
Your fears will fly today
Safe flow through stormy weather
When you're here you say
The sun will shine again
New dawns will rise again
And we'll be together
Till the end
The sun will shine again
New dawns will rise again
And we'll be together
Till the end
Oh baby, what am I supposed to do
Oh baby, when times get rough
And the goings hard
We'll still be here for you
The sun will shine again
New dawns will rise again
And we'll be together
Till the very end...
