Three weeks since you've been gone  
The radio still plays our song  
Memories won't let me move on

Keep going back to that same old place  
Your beautiful hair on my face  
As we laid beneath the stars by the lake

Babe my love for you  
Is never gonna change  
Even though the words are true  
The songs don't sound the same anymore

I can still taste your sweet kiss  
With strawberry wine on your lips  
Nothing feels the way it did

Dancing in the rain don't seem  
Near as fun as it used to be  
Feels like there's a dark cloud over me

Babe my love for you  
Is never gonna change  
Even though the words are true  
The songs don't sound the same anymore

Babe my love for you  
Is never gonna change  
Even though the words are true  
The songs don't sound the same anymore
