Announcer: And now, the band you've been waiting for,
Max Modem and the Mainframes!

Lawrence: I think my girlfriend is an alien,
Invading force from Planet 10,
Said she was from out of town,
But I know what she meant...

Lawrence and Phineas: I know she's from another
galaxy,

Lawrence: I don't know just what she's a-doing with me!
She treats my love like a science experiment...

Hubble-Bubble

Does she love me for who I am?
Or does she want to put my brain in a can?
She can have it 'cause I never want to be apart...
Fan-girl: Take my leg warmers, Max!

Lawrence: From her alien heart!

(She's got an alien) Heart!
