Gravity's not so much a law
as just a mere suggestion
Whether or not you're gonna follow it
is up to your discretion

So if you wanna get above the trees
Get ready for some zero G's
And get in line 'cause you know that there's no weight
When you levitate
When you levitate
When you levitate
I said when you levitate
When you levitate
When you levitate
When you levitate
When you levitate
