Alive. Nothings ever felt like this way before  
A special kind of love  
I can't hide  
Inside, it happens everytime that you are near  
You know i'm burnin' up  
& baby it don't ever stop

The music starts  
It's like a symphony  
It never fades  
Keeps calling Night after night it cries

(chorus)  
You got me , You want me  
Any which way i've fallen baby  
I can't explain what's happenin'  
It started on the day you came

And, your eyes  
They tell me all that i've been lookin' for  
I can't run away  
No, it's my time  
Disguise, I tried to play the game so innocent  
But destiny  
Oh, she's got a hold of me

The music starts it's  
like a symphony (playing through my mind)  
It never fades keeps calling  
Night after night it cries

(chorus)

You want me you got me  
Meltin' inside i'm fallin' baby  
I can't escape what's happenin'  
It started on the day you came
