[music: Payne/Palms, lyrics: Payne]

Leave me alone, but I do need some company dear  
Oh please don't leave home, don't really mean what I'm  
saying here  
The outside may look okay, not all of it was hell,  
My biggest wish and fear is to forever drift and dwell  
Leave me alone, let's pretend that we're not here,  
Oh please don't leave home, wouldn't it be great to  
disappear  
Leave me alone don't leave me alone, & will I ever  
know?  
All the pressures I feel  
They're building up around me  
I hope you'll never feel this aching pain inside
