Hey baby, you go your way
And Ill go mine
But in the meantime

When we're together, touchin' each other
And our bodies do what we feel
When were dancin', smoochin' and swayin'
Tender love song softly playin'

Move closer
Move your body real close
Until we-ee-ee-ee
Feel like we're really makin' love

Ooh-ooh, move closer
Move your body real close
Until we feel like we're really makin' love

So when I say sugar-ar and I whisper I love you
We-e-ell I know youre gonna answer in the sweetest
voice
Sayin' my pretty la-ady
I love you too-oo-oo-oo-oo well

There's much room for passion, ooh-no-no
There's no room for fears
When, the love flows smoothly between us, baby
my dear-ear-ear-ear-ear

Mooooove

Move closer
Move your body real close
Until we feel like we're really makin' love

Woh-oh-oh, move closer
Move your body real close (fade)
