I know nothing of tides  
And i'm confused by the stars  
But you can never get lost  
When you've nowhere to go

And i've got space in my heart  
For the next twenty years  
So don't think there's a rush  
Just come on over sometime

And i will haunt myself blind  
Only sleep when i'm bored  
And i will talk into space  
And i will worry this house

And i've got space in my heart  
For the next twenty years  
So don't think there's a rush  
Just come on over sometime  
(come on over sometime)
