Well you don't belong in this town
Where the sunshine blocks all your rainy clouds
You just gotta get out of the in crowd
But you just can't walk away with a smile on your face
It's so desperate

Maybe I could be your best friend
We'll stay out all night and I'll watch you while you're
sleeping
Cause you give me a lot to stare at
But I just can't walk away when the smile on your face
It's telling me

No one seems to know who you are like I do,
Talk to me, let me in your heart
Cause it's started to rain in Malibu

I can understand if you're frightened
Cause we all know what it's like to pretend
Now without a moment to waste
We should start our escape
And finally get away
With a smile on our face
Baby I know just the place

No one seems to know who you are like I do,
Talk to me, let me in your heart
Cause it's started to rain in Malibu

And I just can't walk away when a smile on your face
It's so delicate

No one seems to know who you are like I do,
Talk to me, let me in your heart
Cause it's started to rain, yeah it started to rain

No one seems to know who you are like I do,
Talk to me, let me in your heart
Cause it's started to rain, yeah it's hard to explain
We gotta get away to Malibu
