Step into my senses
Shatter all my darkness
Find this cure for sadness
You exhaled like an injection
So have this girl in ruins

[Chorus:]

I've fallen faster than ever, after
I swore I'd never escape disaster
Fallen faster than ever and you're
Here to take it all away

When all failed to draw me from desecration
Your sensation filled my lungs
A stare like a thousand stars
That blinded me of harsh reality

[Chorus]

[Bridge:]

Fallen faster than ever after
I swore I'd never escape disaster
Fallen faster than ever after
I swore I'd never escape disaster

[Chorus]
